github.com/abhi-ghosh

PROFESSIONAL SUMMARY

Front-end developer with over a year of hands-on experience building production-quality React applications, a browser extension, and REST/WebSocket integrations through self-directed projects, backed by the Meta Front-End Developer Professional Certificate. Comfortable across the modern JavaScript/TypeScript stack, responsive UI design with Tailwind CSS, and API integration. Currently extending into back-end fundamentals (Python, Django, SQL). Seeking an entry-level front-end role abroad and open to relocation.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js, React Router, Tailwind CSS, Motion

Tools & Practices: Git, Vite, Vitest, Jest, CI/CD, REST APIs, WebSockets, Chrome Extension (Manifest V3)

Currently Learning: Python, Django, SQL, MySQL, Framer

PROJECTS

Patient Sync – Real-Time Patient Intake & Staff Monitoring System

Jul 2026 – Present | React, Next.js, JavaScript, WebSockets, Tailwind CSS, Vercel, Render

- Built a real-time patient intake and activity-monitoring web application with Next.js and JavaScript.
- Implemented WebSocket-based synchronization between patient and staff interfaces for real-time form data, activity, and submission status.
- Designed a responsive UI with Tailwind CSS, including form validation and error handling.

Live demo: patient-sync-tan.vercel.app | Code: github.com/abhi-ghosh/patient-sync

LinkDefender – Browser Security Extension

Feb 2026 – Present | React, Tailwind CSS, Manifest V3, VirusTotal REST API

- Built a React-based Chrome extension that helps users identify malicious URLs before visiting them.
- Integrated the VirusTotal REST API with asynchronous polling to retrieve URL reputation reports.
- Built a modern interface with Tailwind CSS on Chrome Extension Manifest V3.

Pokédex – Data-Driven Pokémon Encyclopedia

Jul 2026 – Present | React, JavaScript, REST API, Motion, Tailwind CSS

- Built a responsive, data-driven Pokémon encyclopedia using the PokéAPI, React, and Tailwind CSS.
- Implemented data filtering, search, and dynamic rendering across a large dataset.
- Created interactive animations and transitions with Motion.

Live demo: pokedex-khaki-alpha.vercel.app | Code: github.com/abhi-ghosh/pokedex

Little Lemon – Restaurant Reservation Web Application

Jul 2025 – Jul 2026 | React, React Router

- Built a restaurant reservation application covering table bookings, menu browsing, and ordering.
- Managed the booking workflow with useReducer and reusable React components.
- Implemented client-side routing and responsive layouts for a seamless user experience.

WORK EXPERIENCE

Founder & Content Creator – Pugee (YouTube)

Aug 2023 – Present

- Grew and monetized a YouTube channel from 0 to 9,800+ subscribers and 11M+ views.
- Owned the full production pipeline – filming, editing, audio processing, and post-production – using DaVinci Resolve, OBS Studio, FL Studio, Reaper, and GIMP.

Client Relations & Operations Assistant – Family-Owned Construction Business

May 2018 – Present

- Presented residential properties to prospective clients and guided them through purchasing decisions.
- Managed property paperwork and records with a strong focus on accuracy and process consistency.

EDUCATION

B.Tech, Food Technology – Maulana Abul Kalam Azad University of Technology

Guru Nanak Institute of Technology | Nov 2014 – Nov 2018
